

Nightmares in a Bell Jar craft

Create your own creature in a jar inspired by our collection of wet specimens. These can be viewed here: <https://www.liverpool.ac.uk/csd/app-directory/nightmares/>

What you will need:

- A glass jar or plastic see-through tub
- Play doh, modelling clay or plasticine
- Coloured paper or stickers to decorate the jar / tub
- Tissue paper (optional)

Method

1. Select a jar
2. Download our app and view the various strange creatures floating in jars.
3. Create one of our creatures or make up your own mythical creature or monster!
4. Place carefully inside the jar.
5. You could decide to make a land scene inside your jar by adding tissue paper
6. Decorate the outside of your jar. You could use animal stickers or create a little landscape scene with cut-out trees or mountains.
7. If you would like your creature in liquid like ours, you could add water – just make sure you use a glass jar with a secure lid!
